

Tie Dye Instructions

Basic spiral technique

1. Wash and wet the fabric, then wring out excess water.
2. Lay the fabric flat and pinch the center point.
3. Twist the fabric around the center point into a spiral, keeping it flat.
4. Secure the spiral with rubber bands, dividing it into wedge sections.
5. Apply dye to each wedge section, working from the center outward.
6. Wrap the dyed fabric in plastic and let it sit for 6 to 8 hours.
7. Rinse under cool water until the water runs clear.
8. Remove the rubber bands and wash separately, then dry and enjoy.
